

To whom it may concern:

I strongly urge the FCC to reject the NAB's petition 04-160 and to SUPPORT XM's ability to provide the kind of programming that grossly benefits its listener base. As a motorcyclist, commuter, friend, family member, boyfriend, professional, I use XM's programming to help me every day.

The traffic, weather, and news helps me get ready in the morning and the music keeps me going all day and night. Because of XM's unique ability to deliver traffic and weather in a timely, efficient, and continuous manner, I have had friends call me to ask me to check the traffic for them while they're driving to or from work or an event.

When I'm listening to XM on my motorcycle, the traffic and weather has helped me remain safe by avoiding hazardous road or weather conditions. Their programming is continuously improving the quality, enjoyment, and safety of their listeners. Do not let petition 04-160 come to pass.

Sincerely,
Justin
